

Made-to-Measure Abdominal Binder

Article:
Made-to-Measure Abdominal Binder

If measurements, proportions and shape deviate from the norm, a custom, made-to-measure abdominal binder (corset) should be considered. Abdomen and hips are totally enclosed without restricting movement in the lumbo-sacral area.

Description / Function:

- made of bandana Drill or Sateen
- elastic gussets at sides along bottom edge
- side hook and eye closure with back-lacing or on request side-lacing
- outer abdominal-support with straps and 2 three thorn buckles
- comes semi-finished ready for fitting - with seams opening outwards or can be ordered finished.

Indication:

- abdominal muscular weakness due to age, paralysis, obesity
- condition after abdominal surgery
- condition due to hernia
- during pregnancy
- after delivery
